54	0046L	Maurice Farman Shorthorn Bi-plane on the Foreshore. Note the Library Hall in the background c 1920s. "farman Aircraft" Information given to LHS by Kack Pearce, Colac. The "Farman" with the propeller and motor at the rear of the main plane was known as a "PISHER". the Owner/Pilot of that plane was Graham Carey who lived in Melbourne and did some barnstorming around the country. In addition to joyrides on many occasions he flew low over towns and threw leaflets printed to advertise shows and circuses and as we kids must do, raced across paddocks collecting the "News" and taking it home. My experience with him came at Bacchus marsh (my home town) where he caused my father to be an agent for Studebaker motor cars of which he sold many. Carey's son was employed as a salesman later on. I don't know where the plane finished up. The joy rides were 10/-or 5/- depending upon how long - a real adventure.
